

I have been a satellite radio subscriber for well over a year now and love the variety and quality of the choices that XM offers. It is unmatched by any city and I gladly pay the monthly fee to have the privilege to listen to what I want when I want. I was thrilled to know that I was now able to get continuous traffic and weather updates along with my music choices with my subscription. I strongly and respectfully urge you to reject the NAB petition 04-160 attempting to stop xm from providing this new service to subscribers. It is a welcome addition to the xm family and the NAB should not be able to have a say in what I am entitled to pay to listen to.

Thank you,

Jeffrey Goldstein
